

hunt, shoot, wound, kill, trap, capture, or collect, or to attempt to engage in any such conduct (16 U.S.C. 1532(19)). The term “harm,” as defined in our regulations, includes significant habitat modification or degradation that results in death or injury to listed species by significantly impairing essential behavioral patterns, including breeding, feeding, or sheltering (50 CFR 17.3). The term “harass” is defined in our regulations as to carry out intentional or negligent actions that create the likelihood of injury to listed species to such an extent as to significantly disrupt normal behavioral patterns, which include, but are not limited to, breeding, feeding, or sheltering (50 CFR 17.3).

Section 10(a)(1)(B) of the ESA contains provisions that authorize the Service to issue permits to non-Federal entities for the take of endangered and threatened species caused by otherwise lawful activities, provided the following criteria are met: (1) The taking will be incidental; (2) the applicant will, to the maximum extent practicable, minimize and mitigate the impact of such taking; (3) the applicant will ensure that adequate funding for the plan will be provided; (4) the taking will not appreciably reduce the likelihood of the survival and recovery of the species in the wild; and (5) the applicant will carry out any other measures that the Service may require as being necessary or appropriate for the purposes of the plan. Regulations governing permits for endangered and threatened species are found in 50 CFR 17.22 and 17.32, respectively.

Public Comments

You may submit your comments and materials by one of the methods listed in **ADDRESSES**. We specifically request information, views, and suggestions from interested parties regarding our proposed Federal action, including adequacy of the HCP pursuant to the requirements for permits at 50 CFR parts 13 and 17 and adequacy of the EAS pursuant to the requirements of NEPA.

Public Availability of Comments

All comments and materials we receive become part of the public record associated with this action. Before including your address, phone number, email address, or other personally identifiable information in your comments, you should be aware that your entire comment—including your personally identifiable information—may be made publicly available at any time. While you can ask us in your comment to withhold your personally identifiable information from public review, we cannot guarantee that we

will be able to do so. All submissions from organizations or businesses, and from individuals identifying themselves as representatives or officials of organizations or businesses, will be made available for public disclosure in their entirety.

Next Steps

After public review, we will evaluate the permit application, associated documents, and any comments received to determine whether the permit application meets the requirements of section 10(a)(1)(B) of the ESA. We will also evaluate whether issuance of the requested section 10(a)(1)(B) permit would comply with section 7 of the ESA by conducting an intra-Service section 7 consultation under section 7(a)(2) of the ESA on the proposed ITP action. If we determine that the project qualifies for a categorical exclusion under NEPA because neither the permit nor the permit issuance is anticipated to significantly affect the quality of the human environment, we will finalize the EAS. The final NEPA and permit determinations will not be completed until after the end of the 30-day comment period, and will fully consider all comments received during the comment period. If we determine that all requirements are met, we will issue an ITP under section 10(A)(1)(B) of the ESA to the applicant for the take of the covered species, incidental to otherwise lawful covered activities.

Authority

We provide this notice in accordance with the requirements of section 10 of the ESA (16 U.S.C. 1531 *et seq.*) and NEPA (42 U.S.C. 4321 *et seq.*), and their implementing regulations (50 CFR 17.32 and 40 CFR 1506.6, respectively).

Regional Director, U.S. Fish and Wildlife Service.
