APPENDIX 4B - TOTAL COST OF GOODS - DOMESTIC SALES OF LIKE GOODS

(This appendix is in reference to questions D22 to D29 of the RFI)

The following chart must be completed for all models of small power transformers sold domestically during the PAP.

Refer to the "Column Descriptions for Appendices" section at the end of the RFI for an explanation of the information required in each column.

The costing information requested should be presented in a format that includes all costs and is reconcilable to your company's own financial records.

The suggested format may be modified to conform to your own financial records.

		MODEL SOLD DOMESTICALLY
