Dumping and Subsidizing

FINDING

Inquiry NQ-2021-006

Oil Country Tubular Goods

*Finding issued
Tuesday, February 22, 2022*

IN THE MATTER OF an inquiry, pursuant to section 42 of the *Special Import Measures Act*, respecting:

OIL COUNTRY TUBULAR GOODS

FINDING

The Canadian International Trade Tribunal, pursuant to the provisions of section 42 of the *Special Import Measures Act* (SIMA), has conducted an inquiry to determine whether the dumping of oil country tubular goods which are casing, tubing and green tubes made of carbon or alloy steel, welded or seamless, heat treated or not heat treated, regardless of end finish, having an outside diameter from 2 ³/₈ inches to 13 ³/₈ inches (60.3 mm to 339.7 mm), meeting or supplied to meet American Petroleum Institute specification 5CT or equivalent and/or enhanced proprietary standards, in all grades, excluding drill pipe, pup joints, couplings, coupling stock and stainless steel casing, tubing or green tubes containing 10.5 percent or more by weight of chromium, originating in or exported from the Republic of Austria, has caused injury or retardation or is threatening to cause injury, as these words are defined in SIMA.

Further to the Tribunal's inquiry, and following the issuance by the President of the Canada Border Services Agency of a final determination dated January 21, 2022, that the above-mentioned goods have been dumped, the Tribunal finds, pursuant to subsection 43(1) of SIMA, that the said dumping has not caused injury and is not threatening to cause injury to the domestic industry.
